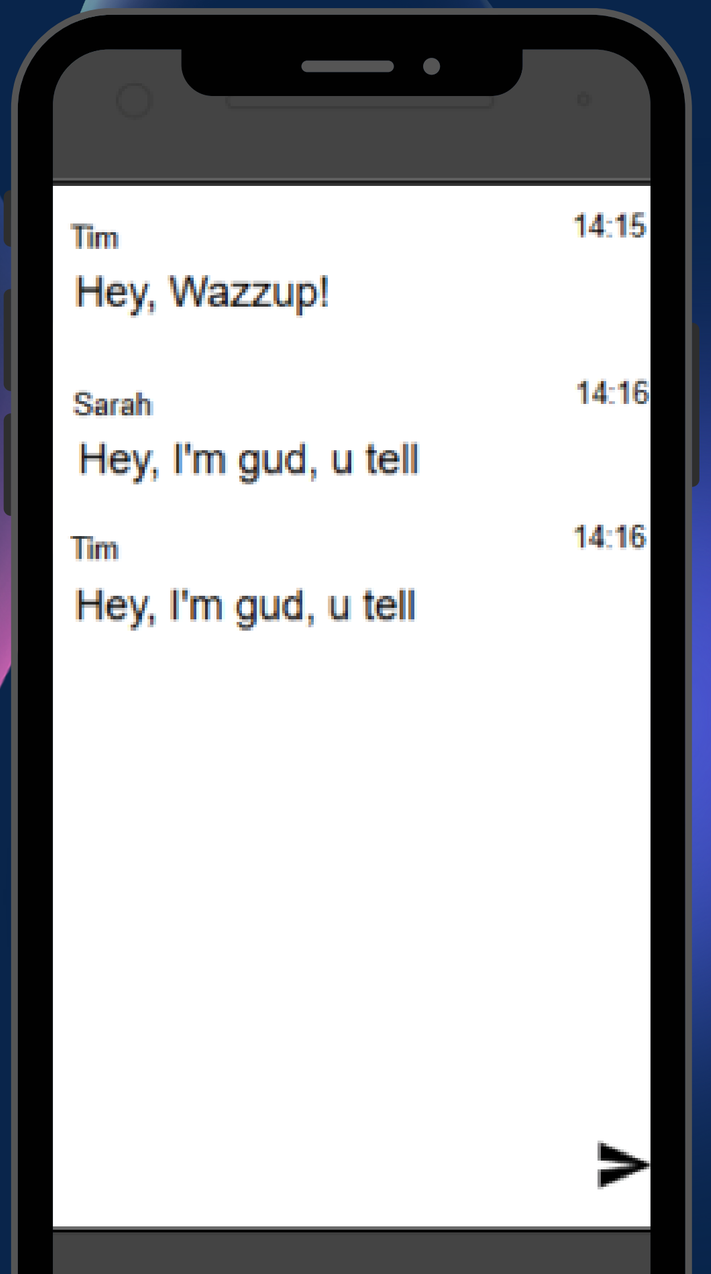
MOBILE CHAT APPLICATION

A mobile application to connect with people using messages and calls



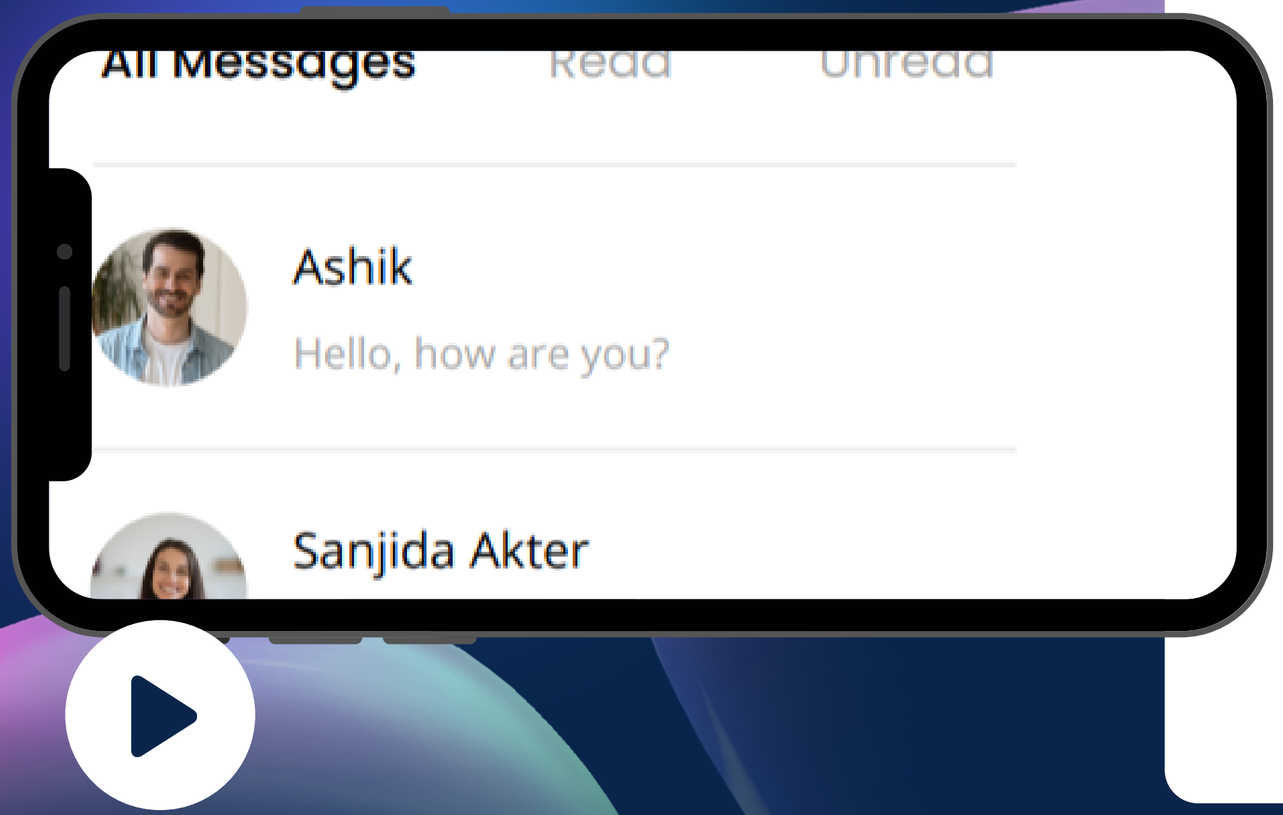
AGENDA

01 Features

02 why it is better to others

03 Live demo

FEATURES



Change Theme

Integrate biometric authentication APIs (such as Android Fingerprint API or Face lock ID) for fingerprint login

End-to-End Encryption- Use a strong encryption algorithm for securing messages with individuals and group communication

Real-Time Communication technology for seamless and secure p2p audio calls.

WHY IT IS BETTER TO OTHERS

Effortless Calls

Stay connected with high-quality audio calls that are as easy as tapping a button.

Secure Access

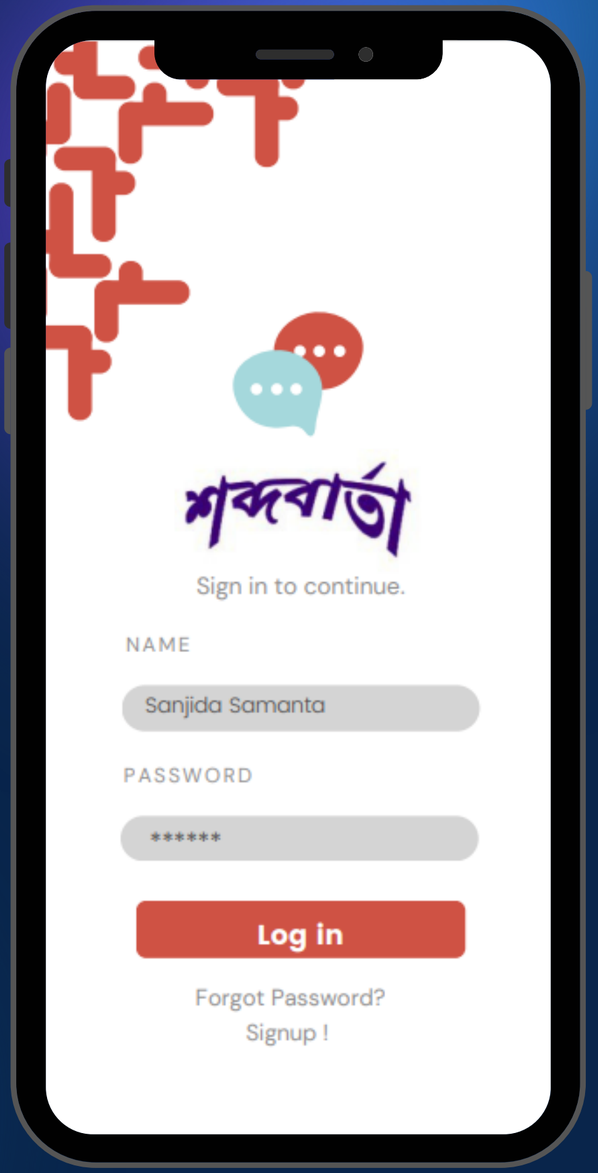
Log in with just a touch using your fingerprint or face detection for hassle-free security.

Secure Conversations

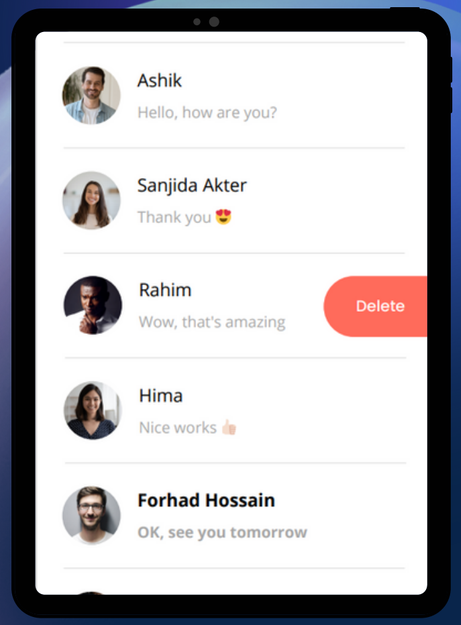
Enjoy peace of mind with end-to-end encryption, ensuring only you and your intended recipient can read your messages.

Group Chat

Connect with friends, family, or colleagues all in one place with our easy-to-use group chat feature.



LIVE DEMO



Ashik
Hello, how are you?
Sanjida Akter
Thank you 😍
Rahim
Wow, that's amazing
Delete
Hima
Nice works 👍
Forhad Hossain
OK, see you tomorrow
